SUMMARY

As a Frontend Developer, I specialize in creating responsive web applications using modern technologies like React.js and JavaScript. With a strong foundation in database management and API integration, I focus on optimizing performance and enhancing user experience. I am passionate about writing clean, maintainable code and strive to build user-friendly interfaces that cater to real-world needs

KEY ACHIEVEMENTS

Project Completion

Increased project completion rate by 20% within a year.

Web Applications

Developed over 10 web applications, enhancing portfolio.

Performance Optimization

Reduced website load times by 35% using optimized code.

User Experience

Improved user satisfaction scores by 50% via enhanced UI design.
